

EPA-15WWM6
WALL MOUNTED
SPEAKER 6W

CPR **CE** 

www.ekavis.com

Features

- High clarity speech reproduction
- 100V line system compatible
- Multiple power tap settings
- Wide frequency response range
- Durable ABS enclosure design
- Suitable in humid condition

Description

EKA VIS EPA-15WWM6 is a high-performance wall-mounted speaker engineered for clear speech. Housed in a robust ABS enclosure with a modern design, it ensures durability while seamlessly integrating into indoor and semi-outdoor environments such as offices, educational institutions, retail spaces, and public areas. The speaker is optimized for consistent acoustic output and wide sound dispersion, delivering reliable performance across varied installation conditions.

EKA VIS EPA-15WWM6 supports multiple power tap settings for flexible configuration within 100V line public address systems, enabling efficient system integration and load management. Designed for straightforward wall mounting, it ensures stable operation, uniform audio coverage, and long-term reliability, making it a practical solution for distributed sound applications.

Technical Specification

Drive	6
Rated power	15W
Tapping	10W-5W
Sensitivity	92dB
Impedance	1000/2000 Ω
Frequency Range	110Hz-15KHz
Line voltage	100V
Enclosure	ABS
Approximate Weight	1 Kg
Dimension	120mmx70mmx260mm
