

EPA-30WH
HORN SPEAKER

Features

- 100V Line Audio Compatibility
- Supports 70V and 100V input
- Sleek and Modern Design
- Multiple selectable power tap settings
- Stainless steel mounting bracket
- IP66 rated waterproof

Description

EKA VIS EPA-30WH is a high-performance horn speaker designed for clear long-distance speech projection in outdoor public address and emergency announcement applications. Supporting both 100V and 70V line systems, it delivers reliable voice clarity with multiple power tap settings for flexible installation and sound coverage options.

EKA VIS EPA-30WH features a durable ABS enclosure with a stainless steel mounting bracket for reliable outdoor operation. Its IP66-rated waterproof construction ensures dependable performance in challenging environments, while the adjustable mounting design enables quick and easy installation. Engineered for consistent audio intelligibility, it is ideal for professional paging and outdoor communication systems.
