Features

- Compact and elegant cabinet design
- Angled baffle for wider coverage
- ABS front grille with cloth
- Durable MDF enclosure construction
- Clear speech & background audio
- Easy wall mounting with keyhole

Description

EKA VIS EPA-6WCS6 is a compact column speaker designed for clear speech reproduction and background audio applications in indoor environments. Its angled front baffle design enhances sound dispersion and listening coverage, making it suitable for commercial and public address installations. Built for reliable performance, it delivers balanced audio clarity for announcements and music playback.

EKA VIS EPA-6WCS6 features a durable MDF enclosure with an ABS front grille for long-lasting operation and an elegant appearance. The keyhole mounting design enables quick and easy wall installation, while the compact structure allows seamless integration into boutiques, restaurants, hotels, worship places, showrooms, and similar spaces. Available in black and white finish options, it suits a wide range of interior applications.
