- Dual supply operation
- Optional EPABX system integration
- Speech & music optimized
- Gooseneck mic design

Description

EKA VIS EPA-AC + EPA-AMP is a multi-zone announcement system comprising a controller and a microphone console, designed for effective and high-quality audio announcements along with soft music playback. It features feather-touch switches for long life without mechanical parts and is housed in an attractive mild steel enclosure. The system is available in multiple zone configurations from 6 zones and extendable up to 100 zones and supports connectivity of up to five consoles, allowing announcements from five different locations to the same zones.

EKA VIS EPA-AC + EPA-AMP offers flexible installation with both wall-mount and rack-mount options and supports integration with fire alarm panels for pre-recorded fire alert messages, along with optional EPABX system compatibility, and includes an LCD display with 2 lines and 16 characters with backlight for clear indication.
