- Suitable for professional PA environments
- Clear and strong audio output
- Durable high-quality ABS body

## Description

EKA VIS EPA-MPPT1 is a high-quality wireless microphone designed for clear and reliable voice transmission in public address and announcement applications. Built with a durable ABS body and specially tempered microphone mesh, it ensures enhanced durability and long-term performance. Its efficient audio design delivers strong and clear sound output suitable for single-zone communication environments.

EKA VIS EPA-MPPT1 is engineered for stable operation and user convenience, making it ideal for announcements, presentations, and professional PA usage. The lightweight construction and ergonomic design provide comfortable handling, while the robust build quality ensures dependable performance across daily commercial and institutional applications.
