- 20m viewing distance
- Lithium-Ion Battery

Description

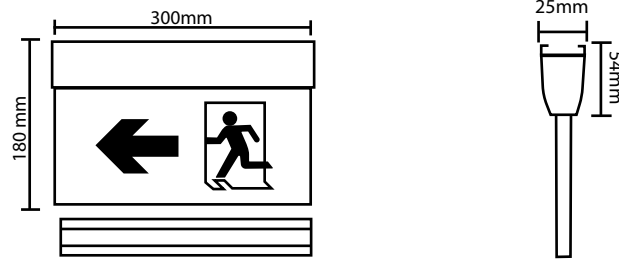

ES2SS/DS is a self-contained LED exit signage designed to ensure clear and reliable emergency guidance in commercial, residential and industrial environments. It features a robust and durable construction suitable for continuous operation in demanding conditions, enhancing overall system reliability. The unit offers high visibility with 20m viewing distance options, ensuring occupants can easily identify exit routes during emergencies.

ES2SS/DS is equipped with long-life LEDs rated up to 50,000 hours, and incorporates energy-efficient performance to reduce power consumption without compromising brightness. It requires minimal maintenance and delivers consistent performance. The signage is available with Lithium-Ion battery for dependable backup operation, ensuring uninterrupted functionality during power failures or critical situations.

Technical Specification

Model	ES2SS/DS
Operating Voltage	240V AC
Battery	3.7 V 2200 mAh Lithium-Ion Battery
Housing	PVC+(ABS)
Mounting	Surface Mount to wall or ceiling
Back Up Duration	6 Hours
Recharge Period	2 ~ 3 Hours
Power Consumption	< 2 Watt
Dimention	300mm (L) x 25mm (W) x 180mm (H)
Approximate Weight	650 g
